

Step1:打開 Play 商店，搜尋 VMware Horizon Client 並安裝

The screenshot shows the Google Play Store interface for the VMware Horizon Client app. At the top, there is a navigation bar with a back arrow, the text "Google Play", a search icon, and a menu icon. Below this is the app's header section, which includes a green circular icon with a white monitor and server rack symbol, the app name "VMware Horizon Client" in bold black text, and the developer name "VMware, Inc." in green. A "商業" (Commercial) badge is visible below the developer name. A large green button with the white text "安裝" (Install) is positioned below the header. Underneath the button, there are three statistics: "4.0 ★" with "3364 則評論" (3364 reviews) below it; "超過 50萬次" (Over 500,000) with "下載次數" (Downloads) below it; and a "3+" age rating icon with "3 歲以上 ⓘ" (3 years and older ⓘ) below it.

Step2:新增伺服器:vdi.ntnu.edu.tw

The screenshot displays the VMware Horizon client interface. At the top, the "vmware Horizon" logo is shown in a light gray font. Below the logo, the server address "vdi.ntnu.edu.tw" is entered in a text field. Underneath the text field, there is a section titled "伺服器說明 (選擇性)" (Server description (optional)) with a vertical teal bar on the left. At the bottom of the interface, there is a large green button with the white text "連線" (Connect).

Step3:輸入使用者帳號密碼，即可連線使用

輸入您的使用者名稱和密碼。
